Description

Pair of Seascapes - French School, 20th Century
A charming pair of oil-on-panel paintings depicting lively seascapes featuring sailboats sailing near rocky shores. The compositions, rendered in a palette of bluish and natural tones, feature beautiful rendering of atmospheric effects, light, and reflections on the water. Both works are presented in their wooden frames with gilded stucco, richly molded with friezes of water leaves, heart-shaped motifs, and plant motifs. A beautiful 19th-century decorative set, retaining a pleasant patina of age. Viewable at my warehouses in L'Aigle by appointment. Delivery available in France and internationally.
