Description

Designers: Ray and Charles Eames Manufacturer: Mobilier International (France) Model: lounge chair Year: 1956 Warning!!! Museum-quality pieces...but suitable for everyday use. This pair of camel-leather lounge chairs dates from 1976. All the stickers affixed under the cushions bear the same number. They are "matching numbers" and have been sourced. The cushions have been expertly cleaned to restore the original color without any alteration. The shells show a few minor scratches from normal use. The round Mobilier International stickers are still present. A beautiful set, very rare in this condition. An inseparable pair.
