Height : 7 cm

Description

A unique black molded glass ashtray from the 1980s, shaped like a large dice. Cubic in shape, it features circular gold dots on each of its faces, evoking the traditional pips of a die. The particularly striking contrast between the glossy black glass and the gold accents gives the object an aesthetic that is at once playful, graphic, and sophisticated. A particularly original decorative object that can also be presented today as a piece of vintage design or a sculptural object. Period: 1980s Origin: European work Materials: Black molded glass, gold decoration Dimensions: 7 cm x 7.5 cm x 7.5 cm Keywords: Ashtray, game die, die, black glass, molded glass, 1980s, design, vintage design, decorative object, collectible, 80s, Art Deco, playful object, decoration, black and gold glass.
