2 800 EUR

Period : 19th century

Condition : Très bon état

Material : Paper

Description

Print from the "Aspects of Nature" series, "Moonrise," created in 1898. Sheet dimensions: 640 mm x 900 mm; lithograph dimensions: 545 mm x 830 mm. Framed with UV-protective, anti-reflective museum-grade glass. Our print is one of only 25 copies in the deluxe edition on Chinese paper, numbered 25 and signed in pencil by Rivière. Chinese paper, due to its greater affinity with pigments, accentuates the color contrasts in lithographs and preserves them better over time. Here, the artist presents a vision of an imaginary hamlet heavily inspired by Loguivy, where he had a house built in 1895. See the Catalogue Raisonné of prints by Yann Le Bohec and Olivier Levasseur, published by LOCUS SOLUS, for details on the print run and the history of the series "Les aspects de la nature."
