Description

A men's pocket watch...Solid silver case...From a FRENCH production...Hallmarked with the "crab" mark 800/1000...And a SWISS movement...From the "ELIX" brand...In perfect working condition...The dial protection is made of glass...A simple model showing just the hour and seconds...The case is in very good condition...Just a few scratches in the areas that help open the covers...If needed, it can be polished...But I prefer to leave it as is...From the 1930s...With lovely Art Deco design...By the watchmakers MOUNIER - TARDY...With two engraved initials: "G. R. "...Note that the "fast-forward/rewind" mechanism is different from the classic needle-style ones...Weight...approximately 65 gr...I'll be more precise once I have a good scale...
