## Beautiful Ottoman Lamp Base Made From Turned Bronze, 17th-18th Centuries

480 EUR

Signature : Art Ottoman

Period : 17th century

Condition : Bon état

Material : Bronze

Diameter : 22cm

Height : 29cm

### Description

H. 29 cm; base diameter 22 cm; weight: 1.3 kg  
Elegant bronze candlestick with a wide, circular molded base and a tall, turned shaft. The base, which flares out widely and is constructed in concentric tiers, features a molded peripheral border whose outline appears to be cut into panels. It supports a central dome topped by a slender shaft, marked by several rings and successive bulges. Deep, wide bowl, curved and banded. This is likely the base of an Ottoman lamp like the one shown in the last photo (Sotheby's-Pinterest at Chandeliers Anciens), and this one bears a strong resemblance to it; this model, more complete, is dated 1612... In good condition, with a beautiful sheen to bronze; there is a small restoration on the side (photo) Buy Now: Payment by credit card or PayPal.eclectic --
