Length : 9 cm de largeur environ

Height : 14,5 cm de hauteur environ

Description

A beautiful owl in polychrome Viennese bronze with finely chiseled plumage painted in shades of brown, ochre, and gray. The owl's gaze is brought to life by two brown glass eyes, which give it a very expressive look. Viennese craftsmanship, late 19th century. Very good overall condition. Some wear to the polychrome finish. Tiny loss to the tip of the tail.
