

Large 19th-century Copper Still

2 800 EUR

Period : 19th century

Condition : Très bon état

Material : Copper

Description

Spectacular riveted copper still consisting of a large covered vat containing a strainer for collecting fruit scraps, a small covered vat, and the pipe connecting the two. Complete with its faucets. The entire unit is made entirely of copper, except for the lid handles on the large vat, which are made of iron. The lid of the small vat bears the manufacturer's mark. The still is neutralized in accordance with the law (small holes in the bottom). Dimensions of the large vat: Height 130 cm, diameter 110 cm.
