Description

Important 19th-Century Baluster Vase by Eugène Cornu, Made of Onyx, Gilded Bronze, and Cloisonné Enamel. A superb and rare baluster-shaped vase from the Napoleon III period (19th century), crafted from onyx and marble-onyx and adorned with a substantial chiseled gilt-bronze mount and a band of cloisonné enamel featuring rich, refined decoration. Eugène Cornu, Director of the Compagnie des Marbres d'Algérie, Maison Viot & Cie. Onyx with nuanced natural veining, gilded art bronze, polychrome cloisonné enamel. Central band of cloisonné enamel depicting a polychrome scene with cherubs at the center, surrounded by leafy and floral arabesques on a midnight blue and turquoise background. Side handles in gilded bronze with volute motifs, adorned with highly
