Description

A beautiful little bronze bowl with a medallion patina, crafted in the antique style, dating from the first half of the 19th century. A very elegant design inspired by ancient braziers. The bowl is circular and deep; it is supported by three deer legs ending in ram's heads; the underside is adorned with a lamp base decorated with acanthus leaves..... This type of small bowl/tazza was intended to decorate a table centerpiece or a desk, where it often served as an incense burner. The cast iron, chiseling, and patina are of very high quality, which--despite the absence of a mark--suggests an attribution to the Barbedienne House in Paris. Note: Shipping to France is available via Colissimo with tracking and insured delivery upon signature: 20 euros. Shipping to other destinations available upon request.
