Description

An elegant Louis XVI bed made of molded and finely carved beech wood, refinished in a soft cream shade, crafted in the late 18th century. Inspired by the Louis XVI decorative style, this bed captivates with its balanced proportions and delicate carvings. The delicate carved ribbons, emblematic of the neoclassical style, add a touch of refinement while emphasizing the elegance of its silhouette. Its cream patina harmoniously highlights the decorative reliefs and allows it to blend seamlessly into both a historic home and a contemporary interior, where it will add plenty of charm and brightness. The upholstery has been fully restored in our workshop to provide excellent comfort while preserving the spirit of the piece. Thanks to this meticulous restoration,
