Description

The Feminine Essence in Figurative Art, Between Post-Impressionism and Expressionism. The Spanish artist Joan Raset (1938-2019) was born in Barcelona, Spain. She was trained and worked in technical architecture, but in the 1970s, she was drawn to abstract painting, pastel portraits, and figurative works, to which she attributed her subsequent artistic evolution. His pastel works and drawings, heavily influenced by Egon Schiele, are distinctive and led to several commissions from publishers. "The Female Nude in Pastel" was one of his most popular books. In the 1990s, he began exhibiting from Japan to the United States and throughout Europe with remarkable success. In a personal figurative style that blends Post-Impressionism and Expressionism, he creates pastels, drawings, and oil paintings on
