Description

"Zagar" halogen floor lamp by Sergio Carpani for Stilnovo. The lamp consists of a distinctive black anodized aluminum column with a striking ribbed profile, accented by contrasting red details on the dimmer switch, the light source, and the base. The light source can swivel 90 degrees, allowing it to be directed upward, to the side, or to any position in between. The red rotating rod on the side allows you to adjust the light intensity, ranging from warm ambient lighting to bright, clean lighting. This rare vintage model is a masterpiece of postmodern Italian design. This particular piece stands out for its extremely rare cylindrical "sledge-style base," characteristic of early productions. 38 cm wide, 35.5 cm deep, 189 cm high. In good vintage condition, with slight signs of wear consistent with its age and use. Marked
