

Serpentine Column

3 500 EUR

Period : 19th century

Condition : Parfait état

Material : Marble

Diameter : base 40 x 40 cm / diamètre du fut central : 28cm

Height : 114cm

Description

Rare! , A majestic "serpentine" column with a rotating platter; it consists of four pieces. It is therefore made of serpentine, not marble, as serpentine was not an option to choose from. Note the scratches on the rotating base, evidence of its past use for displaying busts, bronzes, or other collectibles.
