

Clitunno Lamp By Vico Magistretti

1 250 EUR

Signature : Vico Magistretti pour l'éditeur Artemide

Period : 20th century

Condition : Bon état

Diameter : 40

Height : 165

Depth : 40

Description

A lamp designed by Vico Magistretti for Artemide, with production beginning in 1964. The collection, produced at the time under the generic name "Omega," is quite distinctive: the bulb is housed within the sphere, and a ring--also made of opal glass--transmits and softens the light from the source; and the whole assembly appears to be suspended from an elegant four-pronged nickel-plated steel support.
