Description

A striking lamp with a gilded bronze frame...This porcelain baluster lamp with an ivory-white background is adorned with a rich polychrome decoration combining flowers, birds, plant motifs, and stylized landscapes, arranged within geometric panels outlined in cobalt blue. The color palette, dominated by iron red, blue, turquoise, and green, reflects the influence of Japanese export ware. The piece is magnificently enhanced by a substantial gilded bronze mount, chiseled with scrollwork, volutes, and foliage motifs, resting on a richly sculpted four-legged base. The quality of the frame, the finesse of its chiseling, and the harmonious combination of Asian porcelain and gilded bronze lend this lamp a particularly decorative character. It is lit by three bulbs. Please note: there are two small nicks on
