Description

A. Margelin - "La Force" - Regule sculpture with a nuanced patina. A superb sculpture depicting a muscular man in the midst of exertion, pulling a wheel, powerfully illustrating the theme of physical strength and determination. Crafted from régul with a green patina nuanced by brown and golden tones, this work captivates with its expressive anatomical modeling, the tension of the movement, and the richness of its patina. The piece rests on an elegant black Portor marble base veined with gold, which highlights the sculpture's decorative and refined character. The sculpture is signed "A. Margelin" on the base. A piece with character, typical of the decorative art of the late 19th and early 20th centuries, ideal for adding a sculptural and authentic touch to a classic or contemporary interior.
