Description

After Adrianus Eversen (1818-1897) - Townspeople in the Snow - Oil on Canvas Oil on canvas depicting a lively snow-covered street in a Dutch town, after a composition by the painter Adrianus Eversen (1818-1897). The scene features the characteristic architecture of historic Dutch towns, with brick façades, stepped gables, a church tower and numerous figures going about their daily activities. The painting closely follows the composition of Townspeople in the Snow by Adrianus Eversen, a signed oil on panel measuring 44 × 35.5 cm, offered at Christie's Amsterdam on 14 October 2008, lot 240/A. Executed in oil on canvas on a considerably larger scale than the original, this painted version displays loose brushwork and a rich texture, particularly evident in the treatment
