Description

A men's signet ring with clean lines, combining the understated elegance of solid silver with the depth of a stone featuring dark hues. This striking solid silver signet ring features a wide oval setting, closed-set with a polished hawk's-eye cabochon that shimmers with midnight blue and anthracite gray hues. Its setting, with solid, gently curved shoulders, tapers gradually toward the back of the band. The contrast between the silvery surface and the stone's deep tones highlights the graphic and timeless character of this piece. Inspired by modernism, this signet ring captivates with its generous proportions, the simplicity of its design, and its understated elegance.
