Description

Vintage necklace crafted in 18-karat yellow gold, embellished with three natural cabochon turquoises carved in the shape of scarabs. The design consists of rectangular links with rounded corners, arranged in staggered rows. The polished surfaces create a regular, luminous pattern that draws the eye toward the central composition. On the front, three rectangular gold plates frame the oval turquoises. The central element, positioned slightly lower than the two on the sides, gives the piece a symmetrical, tiered appearance. The scarab-style craftsmanship introduces an Egyptian-inspired motif, enhanced by the contrast between the intense blue of the turquoises and the warmth of yellow gold. The engravings on the stones add depth and character to the linearity of the frames. With a total length of approximately
