### Description

Pair of early 20th-century silver-plated metal candlesticks in the Louis XVI style, converted into cordless lamps. Square bases adorned with beaded friezes. Fluted shafts topped with a richly decorated capital. The wireless bulbs are new and can be controlled using the included remote controls or directly via the buttons on the bulbs themselves. The magnetic base system allows you to easily remove the bulb from the top of the lampshade to recharge it via a USB-C cable. This system is ideal for using these lamps on tables indoors or outdoors, as well as in areas without electrical outlets. New brass sockets. The oval, beveled lampshades were crafted from a "Visconti" fabric by Maison Thévenon, evoking the spirit of Tuscany. Each side features a different monument. Dimensions: Total height: 33
