Description

A superb, large 19th-century dining table made of cherry wood from France measuring 2.52 meters long and 88 centimeters wide. This table stands out for its beautiful proportions. Indeed, it is very rare to find period tables with a width of 88 cm and a length of 2.52 m. Furthermore, its tabletop is made of only 4 planks, whereas very often they are made of 5 or 6 planks of wood. A beautiful table featuring a drawer in the apron, a very beautiful tabletop with a superb patina, spindle legs, height below the apron of 66 cm, which allows for comfortable seating. In perfect condition with a superb patina. Delivery available in Belgium, France, and internationally. On display in our showroom located at 41 Rue Henri Wafelaerts, 1060 Brussels, Belgium. More information and photos available upon request.
