folding clasp.Gross weight: 53 g (18k)Metal: 18k yellow gold - 750/1000, Swiss hallmark.Movement: quartz, new battery.Crystal: sapphire.Reference: 80570030947.Condition: Very good condition. A few micro-scratches from normal wear and tear, which are inevitable on a worn watch, but do not affect readability or appearance.The quartz movement is in working order, with a new battery. A copy of the 2013 service invoice confirms that the watch was serviced by the manufacturer.Please note: Since the watch was opened for inspection, the original water resistance guarantee cannot be certified beyond resistance to splashes and rain. For everyday use only; do not submerge.The mini size is very feminine. The dial, barely wider than the bracelet, extends the line of the piece: it is worn like a flexible bracelet with a central motif, accented with diamonds. The bracelet is well-constructed, flexible, and very lightweight.
