## Description

A striking Art Nouveau-style ring featuring a remarkable openwork floral design, characteristic of the naturalistic aesthetic of this artistic movement.Elongated, flat, and covering a large portion of the finger, it displays a rich decoration of flowers, foliage, and sinuous stems, whose supple, intertwined curves create a particularly harmonious whole. The entirely openwork design of the setting lends this large piece a surprising visual lightness, while highlighting the delicacy and richness of its ornamentation.Crafted on a 750/°° yellow gold base (18 KT, owl hallmark), it features a prominent upper section in 925/°° silver (swan hallmark), offering a particularly soft and luminous white hue.The design centers around an oval-cut blue sapphire, whose deep color serves as the piece's main focal point. a closed setting within a yellow gold frame, this central stone stands out elegantly against the silver-toned backdrop, with the warm hue of the gold providing a subtle contrast.The piece is delicately accented with rose-cut diamonds, scattered across the foliage and scrollwork, as well as colored gemstones--notably emeralds and rubies--which bring the various floral motifs to life. These touches of green and red, combined with the deep blue of the sapphire, enrich the composition with a refined polychromatic effect without disrupting its overall harmony.The engraving and stone-setting, combined with the numerous openwork details, particularly highlight the movement of the stems and the delicacy of the flowers, in a decidedly naturalistic style.The reverse side of the ring reveals equally meticulous goldsmithing: crafted entirely in yellow gold, it features a delicate openwork pattern that echoes the floral motifs on the upper part. This particularly harmonious design extends the ornamentation even to the parts of the jewelry that are usually hidden, reflecting the care taken in its design and craftsmanship.The ring's simple band, crafted in yellow gold, contrasts with the ornate richness of the upper section and beautifully highlights this spectacular design.A ring with character, making a bold statement on the hand, that combines the botanical poetry of Art Nouveau, the richness of colored gemstones, and the delicacy of remarkable openwork goldsmithing.Estimated weight of the sapphire: 0.85 caratsEstimated total weight of diamonds: 0.30 caratsTotal gross weight: 10.60 gRing size: 57 --can be resized to your preference by our workshop; resizing is complimentary (current diameter 1.78 cm / US size 8)Condition: very good condition; imperceptible micro-scratches; natural inclusions characteristic of colored gemstones that are not visible when worn; minute surface marks on the sapphire consistent with normal wear and tear, not visible when worn; natural inclusions in the diamonds not visible to the naked eye.Full online payment available via
