Small Amphora -- Mediterranean Region, Roman Period, 1st-5th Centuries

280 EUR

Period : Before 16th century

Condition : Très bon état

Material : Terracotta

Diameter : 13,8

Height : 17,7

Description

Terracotta vase with a wide, flattened body, a ring-shaped foot, a cylindrical neck, and two opposite handles. The clay is light in color, with a beige surface. Numerous black deposits (carbon-based biological weathering resulting from centuries of exposure). No restorations. Very good condition.
