Height : épaisseur: de chaque anneau: 1,60 mm / des 3
anneaux réunis: 3,50 mm environ

Description

The legendary Trinity ring from CARTIER, in its large size, features three intertwined, movable bands crafted from 750/°° gold (18 KT, eagle-head hallmark), traditionally available in yellow gold, white gold, and rose gold. Created in 1924 by Louis Cartier, the Trinity has become one of the most iconic creations of the renowned French jewelry house. Its design, remarkably modern for its time, features three intertwined bands with clean, generously rounded lines; the three colors of gold traditionally symbolize love for rose gold, fidelity for yellow gold, and friendship for white gold. This ring is the large-size version, particularly striking for its substantial proportions and the presence it makes on the finger. Each of its three bands is 4.5 mm wide, giving the ring as a whole a more assertive

and sculptural aesthetic than that of the classic version, while retaining the harmony and understated elegance characteristic of this iconic model. Created in 1997, this ring is also notable as a vintage version of the Trinity, whose generous proportions and weight of 15.96 grams attest to its substantial gold content. The three rings, which move freely and are interconnected by their interlacing, can be stacked in various configurations. This play of movement allows for subtle variations in their arrangement as well as in the visual prominence of the three gold colors, renewing the ring's aesthetic depending on how it is worn. The fluidity of this design, combined with the rings' luminous polish and the softness of their curves, fully contributes to the timeless character of this creation, which straddles the line between jewelry and sculpture. The ring is signed "CARTIER" on the inside of the band, which also bears an engraving of its year of production, 1997, as well as its ring size, 57. It comes with its original Cartier case, completing this vintage set. An iconic creation from Cartier, in a particularly striking large-size version, whose generous proportions and harmonious interplay of the three golds offer a bold interpretation of one of the most famous rings in the history of jewelry. Gross weight: 15.96 g Ring size: 57--resizing options available upon consultation with our workshop (current diameter 1.....cm / US size 8) Condition: imperceptible micro-scratches due to normal wear; can be repolished by our workshop (upon request).
