

Hand-blown Glass Cantir With White Filigree And Blue Inlays - Catalonia, Late 17th Century

1 150 EUR

Period : 17th century

Condition : Très bon état

Material : Glass

Height : 30,5 cm

Description

A yellow-tinted blown-glass cantir decorated with white enameled spiral patterns. The piece is embellished with hot-applied translucent blue glass: four star-shaped rosettes adorn the bulbous body, a bead highlights the filling hole, and the twisted ring handle is accented by fillets worked with pliers, topped by a small flame-shaped finial. The foot features a wide, flat knot ending in a very pronounced conical indentation. Languedoc or Catalonia, late 17th-early 18th century. Very good condition (no cracks or chips), small impurities and air bubbles in the glass. Although short and irregular, the end of the spout appears to be original. An elegant and lightweight piece (644 g) despite its large dimensions. Height: 30.5 cm
