Description

A set of eight identical light fixtures in chrome-plated metal andblack metal, from an architect-designed villa in France, fully in keepingwith the modernist design movement of the 1970s. Their forms combine a largedomed reflector made of chrome-plated metal, a cylindrical shaft, and an articulatedstructure made of black metal. The adjustable arm allows you to change the light fixture's positionand its use, whether as a wall sconce or pendant lighting, depending on theconfiguration.The highlyreflective chrome finish contrasts elegantly with the black elements, givingthe set a modernist and architectural aesthetic characteristic ofdesign from the second half of the 20th century.Base plates bearing the engraved "AMP" mark. Designer unknown.Set in very goodcondition.I
