Description

Important, richly carved two-section sideboard - Henry II Renaissance style - 19th century A magnificent and imposing two-section sideboard in the Henry II Renaissance style, dating from the second half of the 19th century, featuring remarkable carving and particularly decorative architecture.This piece stands out for its rich ornamentation, turned columns, deep moldings, and numerous motifs carved in relief.The upper section features an elaborate architectural composition, dominated by a large arched and openwork pediment, adorned with foliage scrolls and a carved head.In the center, a remarkable high-relief panel depicts a lively scene of figures and horses set against a landscape. This composition is framed by arched moldings and slender turned columns.The side doors are
