sertis: 3 mm

Description

A curb-link necklace, whose classic and timeless design is reimagined here in a distinctly jewel-like style, accented with 18 brilliant-cut diamonds set in a closed setting. The curb chain, a timeless jewelry classic, is distinguished by its intertwined links, which are slightly flattened and arranged in a single plane. Here, it makes a striking statement while retaining remarkable flexibility, allowing the necklace to drape naturally and comfortably along the curves of the neck. The originality of this piece lies in the regular alternation of its polished yellow gold links--featuring a beautiful relief--and its 18 brilliant-cut diamonds, each measuring approximately 2.7 mm in diameter. These diamonds, of appreciable size, are individually set in a closed setting within the chain, harmoniously

punctuating its length well beyond what is visible when worn. Their sparkle contrasts delicately with the warmth of the yellow gold, bringing light, texture, and refinement to this traditionally understated link. The closed-back setting, perfectly integrated into the design of the links, emphasizes the continuity of the lines and contributes to the piece's particularly balanced aesthetic. Both classic and exquisite, this necklace thus combines the timeless character of a curb chain with the elegance of a true fine jewelry piece. Thanks to the particularly flexible articulation of its links, this necklace drapes naturally and harmoniously, fluidly hugging the curves of the neck. Its design makes it very comfortable to wear, while preserving the uniformity and beauty of its design. Special care was also taken in the design of its hook clasp, crafted to aesthetically complement the curb chain. Matching the design and proportions of the links, it blends harmoniously into the whole, without interrupting the rhythm or visual continuity of the chain. This meticulous finish ensures the necklace maintains a consistent aesthetic along its entire length, right down to the clasp. The clasp is complemented by a safety chain and a safety loop, providing an additional layer of protection. A piece of jewelry with character--radiant and easy to wear every day--whose understated elegance also complements even the most formal outfits. Estimated total diamond weight: 2.00 carats Gross weight: 40.30 g Condition: very good condition, imperceptible micro-scratches on the gold parts, natural inclusions in the diamonds not visible to the naked eye.
