Four-light Lantern From The Louis XVI Period

9 000 EUR

Period : 18th century

Condition : Très bon état

Diameter : 40

Height : 93

Description

A large cylindrical lantern made of gilded bronze, consisting of four pilasters holding four panes of glass, resting on an openwork balustrade at the bottom, decorated with four pine-cone-shaped feet and a crenellated cornice at the top, adorned with four bronze plumes connected by four arches supporting a scalloped glass smoke vent. The four glass panes are decorated with a gilded bronze ribbon. The lantern holds a small lamp providing illumination equivalent to four candles (electrified).Late Louis XVI-era French work from Paris, as evidenced by its gilding.Dimensions in inches : diameter 16 × height 37
