Description

Case consisting of a two-hoop barrel, a small rolling hoop, the soundboard, the strings, and the tension rods.The brass shell features a brass strike plate at the bottom with two Fleur-de-Lys-shaped stamps and an iron screw with an iron nut, designed to tighten the head onto the bottom plate. On the side opposite this strike plate is a steel hook designed to secure the end of the drumhead.Large drum hoops made of ash wood, drilled with 10 holes spaced at equal intervals. The outer surface is finished with a tricolor lacquer.The drumhead is made of parchment-treated calfskin.The ropes used to tension the drumhead are laced in a zigzag pattern around the shell, passing through the holes in the hoops (ropes have been replaced).The white buffalo leather pull tabs serve as sliders for
