Description

Large Dutch chest of drawers dating from around 1960, originally designed for the organized storage of small items and spare parts.The chest of drawers is made of wood with a warm brown finish and features a large number of drawers of various sizes. Each drawer is fitted with a metal handle and a label holder. Its sleek and functional design is characteristic of mid-20th-century industrial workshop and filing furniture.On the back is an old company stamp from The Hague. The cabinet shows slight signs of wear consistent with its age.Dimensions: 206H x 151L x 64.5
