Description

An elegant solid silver trinket dish from the prestigious Puiforcat house, one of the greatest names in 20th-century French silverwork. With a slightly flared circular shape, it rests on a small pedestal and features a particularly refined repoussé design. The exterior is adorned with a pattern of broad gadroons evoking the petals of a flower, while the interior reveals a finely chiseled rosette radiating from the center, giving the piece a remarkable sense of depth and light. The quality of craftsmanship, the perfect symmetry of the reliefs, and the mirror-like polish attest to the exceptional expertise of the Puiforcat workshops. In very fine condition, with no chips or other damage; there are some slight variations in the color of the silver on the inside of the bowl. French work from the second half of the 20th
