Description

French walnut desk - Early 20th centuryAn elegant French desk from the early 20th century, crafted from fine walnut. The contoured top features a refined veneer with warm, harmonious grain patterns. The frame rests on four curved legs, embellished with decorative finely chiseled bronze accents.The front features three spacious drawers; above the center drawer is a pull-out shelf, a functional element typical of period desks. On the opposite side, to ensure symmetry and formal elegance, there are three faux drawers that faithfully replicate the design of the front.The original bronze handles and ornamental elements give the piece a distinctive character, representative of early 20th-century French craftsmanship.A piece of great charm, ideal for studies, classic interiors, or as a statement piece
