Description

A pair of antique carved, painted, and gilded wooden ornaments.These pieces depict female figures set against a backdrop of foliage, scrollwork, and clusters of fruit. Both pieces are typical of 17th- and 18th-century Baroque art. They were likely used as wall decorations or as part of an altarpiece frame.Given their size and fragility, this pair of ornaments must be picked up in Touraine, but can be delivered within the Paris region or along the Tours-Chartres or Le Mans routes.
