## Description

Dimensions: 26 × 14 cm. Weight: 1.1 kgA very beautiful apothecary jar from early 19th century, made from blown glass (with bubbles), resting on its pedestal, with a baluster-shaped body, a pronounced flange, encircled by a band on base, and a wide, flared neck... and its lid, another matching blown piece, flared and banded, bell-shaped. On each piece, the blowing marks are visible: a clean pontil under bottom, a clean pontil on  top, on  lid's knob. (photo) One does not often see such beautiful balance.French work, dating from FirstEmpire or Restoration period, in excellent condition, flawless.
