Depth : 14

Description

? Set of three Banci Firenze wall sconces - Gold-plated brass, chrome, and crystal - Vintage Italian design???? A magnificent set of three wall sconces from the Italian brand Banci Firenze--true jewels of light where classic elegance meets the exuberance of Italian design. With their dramatic lines and luxurious finishes, these fixtures evoke the splendor of Italian palaces, reimagined with boldness and modernity.? Their unique silhouette resembles a sumptuous draped fabric, whose delicately sculpted folds seem suspended in midair. Crafted from polished brass with golden highlights, these drapery-like forms are held at their ends by two stylized hands made of chrome-plated metal, as if mysterious figures were unveiling a curtain of light. On either side, delicate hanging ornaments

extend the fabric's movement, while the hand-crafted crystal rosettes add a touch of transparency and brilliance to this exceptionally refined composition.???? When the light comes on, the magic begins. A soft golden glow escapes from the bowls and caresses the wall, casting warm, luminous halos. The polished surfaces come alive with a thousand reflections, while the crystal sparkles discreetly. Even when unlit, these wall sconces retain all their decorative impact, resembling three wall sculptures whose every detail invites the eye to linger.???? Blending Italian Baroque, Neoclassicism, and the Hollywood Regency style, these creations will naturally find their place in an elegant and distinctive interior. Arranged in a row along a hallway, on either side of a fireplace, or grouped together in a wall arrangement, they will infuse the space with a warm and sophisticated atmosphere, imbued with the incomparable charm of great Italian decorative creations.???? Two of the three wall sconces retain their original Banci Firenze labels, "Made in Italy." The set is in good overall condition, with a few subtle signs of age on the metal parts, bearing witness to their history. A harmonious set of three light fixtures with a distinctive character, offered exclusively as a set.???? Dimensions of each wall sconce: width 34 cm × depth 14 cm × height 12 cm.???????? Origin: Italy - Banci Firenze.???? Materials: polished brass, chrome-plated metal, and crystal.???? Lighting: R7s linear bulb (halogen bulbs replaced with LEDs)Circa 1980????
