Nautical Inclinometer Or Gitometer

300 EUR

Period : 20th century

Condition : Bon état

Material : Brass

Description

Late 19th century-early 20th century, wood, polished and engraved brass. A quarter circle with a movable arm made of polished brass. An engraved scale runs along the circular edge of the instrument, with repeated graduations from 0° to 40° in 10-degree increments; a movable arm allows for measuring a ship's angle of heel--"the ship's trim"--in the water.A beautiful and unusual object, with some signs of wear and missing screws.Dimensions: 44 x 34 cm | Thickness: 2 cm.
