## Description

D'Argental Vase - Multilayer Glass Floral DesignA superb vase by D'Argental, featuring an ovoid silhouette with simple, harmonious lines. Its generous body, which tapers slightly toward the neck, beautifully highlights the richness of its botanical design.The design consists of an elegant interweaving of foliage and long, cascading stems, finely detailed and rendered in relief. The deep shades of dark green and brown contrast with a magnificent amber and bronze-colored background, creating a beautiful sense of visual depth.The cameo engraving, executed across the various layers of glass, reveals remarkable skill in creating contrast and precision. Light highlights the relief of the leaves and accentuates the warm hues of the material.With its naturalistic inspiration, rich color palette, and high-quality
