Gallé Single-flower Vase With Wisteria Decoration, Formerly Daum Legras

450 EUR

Signature : Emile Gallé

Period : 20th century

Condition : Très bon état

Length : 6

Height : 17

Description

Émile Gallé - Single-flower vase with wisteria decorationAn elegant single-flower vase signed by Gallé, notable for its slender silhouette and particularly refined design. It features a long, tubular stem resting on a bulging, rounded base, creating a harmonious balance.The naturalistic design depicts wisteria branches with delicately intertwined foliage, whose plant forms seem to coil and grow along the neck. The rendering of the motif, with its shades of deep purple, mauve, and dark green, contrasts subtly with the background in powdery and purplish tones.Crafted from multilayered glass, the vase demonstrates Gallé's mastery of glassworking techniques. The design, etched with acid and worked in cameo style, plays on the layering of colored layers to create subtle effects of depth

and relief.The wisteria, with its long, cascading clusters and lush foliage, is a motif particularly evocative of Art Nouveau. It allowed Gallé to translate the natural movement and poetry of the plant world into glass.An elegant and decorative piece that perfectly illustrates the naturalistic sensibility and refinement of the Nancy School's glasswork.
