Description

Émile Gallé - Boat-shaped glass with floral decorationA ravishing multilayered glass bowl by Gallé, featuring an elegant "boat" shape characterized by its curved profile and two pointed ends, evoking the silhouette of a boat.The piece features a magnificent naturalistic design composed of stylized flowers and foliage, whose supple, intertwining lines harmoniously follow the curves of the vessel.The design stands out in deep shades of purplish brown and dark blue against a luminous background of pale yellow, opalescent green, and blue-gray hues. This subtle interplay of colors lends the composition a beautiful depth and highlights the contrast between the botanical motifs and the transparency of the glass.Crafted using the multilayer glass technique, with a design etched and acid-etched,
