300 EUR

Signature : Maria Pergay

Period : 20th century

Condition : Bon état

Material : Silver metal

Diameter : 8,5 cm

Description

A rare, matching set of 5 small, original silver-plated metal bowls, created by the famous French designer Maria Pergay (1930-2023) around 1957. This is the famous "Pompom" model (or Tassel Bowl), presented here in its charming miniature tabletop format (individual bowls or serving cups). (Historical note: In keeping with the artist's early creations from this period, the pieces do not bear an engraved signature, which is typical of this series of silverware). Dimensions of each piece: Diameter: 8.5 cm In good overall condition. There are traces of natural oxidation and slight wear scratches on the inside, but the silver plating remains very beautiful. The two original tassels are present on each of the 5 cups.
