Lobi Chair, Burkina Faso

600 EUR

Period : 20th century
Condition : Bon état
Material : Solid wood
Length : 100 cm
Height : 62 cm

Description

Our large, single-piece chair made of light-colored wood is characteristic of traditional Lobi craftsmanship. Resting on three legs, it is distinguished by its long, raised backrest, the top of which resembles an animal's head. Its surface features a beautiful, polished patina on the upper part, evidence of repeated use, while the underside retains a more matte and dry appearance.Burkina Faso, early 20th century.
