Le Corbusier Lc4 Chaise Longue - Cassina, 1970s

1 800 EUR

Signature : CASSINA

Period : 20th century

Condition : Bon état

Material : Metal

Description

The iconic LC4 Chaise Longue, an original Cassina from the 1970s, designed in 1928 by Le Corbusier, Pierre Jeanneret, and Charlotte Perriand, is one of the most famous and representative examples of 20th-century modern design.The chaise longue stands out for its elegant, tilting frame made of chrome-plated tubular steel, with sinuous and minimalist lines, resting on a solid black-painted metal base.This piece features a metal frame in excellent overall condition, while the original ponyhide upholstery shows evident signs of wear and deterioration, as documented in the photographs, and requires reupholstering or restoration.Dimensions:Length: 160 cmDepth: 55 cmHeight: 70 cm - CONTACT -FOR ANY ADDITIONAL INFORMATION, PLEASE DO NOT HESITATE TO CONTACT
