Description

A very beautiful cigarette case made of gold-filled metal.The spring-loaded push button, which is in perfect working order, is set with a domed sapphire (cabochon cut); this is typicalof luxury accessories from this period;Cartier and Boucheron used cabochon sapphires to create a contrast with the gold-plated metal.The elastic bands are original and slightly stretched.The quality of the gold-filled material ensures a highly durable gold plating, which has allowed this beautiful object to stand the test of time without losing its luster.There is a slight, barely noticeable dent on one side and some light stains on the inside.This superb Art Deco-era cigarette case reflects an era whenthe elegance and refinement of the Roaring Twenties shone with splendor.
