Its hollowed-out interior beneath the cabochon lightens the setting for a comfortable fit while preserving its striking presence on the finger.A ring with character, featuring generous proportions yet remarkably balanced lines, that combines the warmth of coral with the timeless elegance of yellow gold.Gross weight: 9.02 gCoral cabochon dimensions: 15.91 x 11.84 x h 5.7 mmRing size: 52--resizing available upon request by our workshop (current diameter 1.72 cm / US size 6)Condition: imperceptible micro-scratches on the metal; veins and irregularities in the material characteristic of and diagnostic for natural coralPayment can be made entirely online via the website, or in 4 installments via PayPal, for a maximum amount of 2,000 EUR.We are available to provide any additional information regarding alternative payment methods or any remaining balance for purchases exceeding this amount.Are you a professional?
