pearl. Its beautiful roundness, luminous luster, and delicate pearlescent sheen are magnified by the ring's generous curves, whose mirror-like polish visually extends its brilliance. With a diameter of nearly one centimeter, this pearl makes a bold statement while blending naturally into the harmonious proportions of the setting.On either side, two emerald-cut diamonds add a refined geometric touch. Their straight lines and large stepped facets counterbalance the rounded shapes of the piece as a whole, while their crystalline sparkle delicately highlights the pearl's luminous softness.The craftsmanship of the setting reveals a genuine quest for balance between volume and simplicity. The band, wide at the top, gradually tapers toward the bottom, ensuring a comfortable fit and a natural position on the finger.Both sculptural and understated, this ring embodies a contemporary approach to jewelry design, in which the beauty of the materials and the precision of the proportions are enough to create a piece with character.An elegant and timeless ring, whose bold lines particularly highlight the exquisite combination of the Akoya pearl, diamonds, and white gold.Gross weight: 10.28 gPearl diameter: 9.5 mmRing size: 51½--resizing available upon request by our workshop (current diameter 1.64 cm / US size approximately 6)Condition: Very good condition, imperceptible micro-scratches on the metal, natural inclusions in the diamonds not visible to the naked eye.Payment can be made entirely online via the website, or in 4 installments via PayPal, for a maximum amount of 2,000 EUR.We are available to provide any additional information regarding alternative payment methods or any balance for purchases exceeding this amount.Are you a professional?
