Art Deco-style Console Table That Converts Into A Dining Table

580 EUR

Period : 20th century

Condition : Bon état

Material : Painted wood

Length : 151

Height : 78

Depth : 47cm

Description

This modular piece embodies the architectural elegance and functionalism of the Art Deco style. Designed to optimize space without compromising style, this piece is initially presented as an entryway or living room console with clean, geometric lines. Its central base consists of two curved wooden legs mounted on a solid, black-lacquered rectangular plinth, adorned with delicate fluted engravings and gold or copper-colored details in a "skyscraper" style (strikethroughs/vertical lines). The beveled top easily unfolds via a folding leaf to double the surface area and transform into a spacious, inviting dining table. Combining the refined contrast of dark tones, this versatile piece adds a touch of refined vintage sophistication and ingenious design to any contemporary or classic
