Description

The fair price for this rare "High Period" curiosity --this rare and remarkable Greek Orthodox icon, carved from a single solid panel and decorated with foliage scrolls, floral garlands, and two Baroque figures serving as caryatids; the rarity of this piece lies in its abundant profusion of sculpture and the quality of the painted scene, rendered in gold with vivid red tones within a sumptuous setting featuring figures with illuminated faces and expressive eyes . An exceptional Renaissance piece featuring carved carving forming a solid frame combined with a beautiful, miraculously preserved, and highly decorative 16th-century Greek Orthodox religious scene on a panel
